

# Your Strategic Partner in Analytical Testing

Raw Material & Finished Product Testing | Regulatory Confidence | Risk Reduction

# Why Partner with RMA?

---

RMA delivers regulatory-ready, defensible data across the full product lifecycle.

We are more than a testing lab – we provide scientific assurance and actionable insights to support quality, compliance, and supply chain decisions.

## Key Benefits

-  **Confident Results:** Defensible data for every batch.
-  **Reduced Risk:** Minimizing manufacturing and supply chain liabilities.
-  **Streamlined Lifecycle:** Accelerated product release and management.

# Lifecycle Testing Overview (1 & 2)

1

## Raw Material Qualification

- Identity, purity, and strength confirmation
- Impurity and trace analysis
- Comprehensive supplier evaluation

2

## Lot Release & Supplier Qual

- Rigorous incoming material testing
- Lot-to-lot consistency verification
- Ongoing supplier approval support

# Lifecycle Testing Overview (3 & 4)

---

3

## Finished Product Testing

- Assay and content uniformity
- Dissolution and disintegration testing
- Impurity and degradation studies
- Retest and shelf-life determination

4

## Lifecycle Management

- Stability programs (long-term, accelerated)
- Trend analysis and risk mitigation
- Photostability, in-use, and transport studies

**Seamless Integration:** Our testing integrates directly with your quality systems for GMP-compliant reporting.

# Risk-Based, Integrated Strategy

---

We prioritize testing based on product risk to reduce delays, recalls, and regulatory exposure.

-  **Integrated Analysis:** Combining wet chemical & instrumental methods.
-  **Critical Focus:** Targeting critical quality attributes (CQAs).
-  **Risk Reduction:** Proactive approach to regulatory risk.
-  **Regulatory Confidence:** Ensuring all data withstands scrutiny.

# Why Choose RMA?

---

## **Strategic Partner**

Not just a lab — we collaborate virtually or on-site.

## **Regulatory Standard**

FDA-regulated, cGMP-compliant, ALCOA++ integrity.

## **Fully Integrated**

Comprehensive wet chemical & instrumental testing.

## **Actionable Insights**

Scalable and flexible solutions for your timeline.

Partner with RMA to accelerate product release and ensure regulatory confidence.
